Dear Sir:

It has come to Applicants' attention that one of the documents filed electronically today, May 22, 2006, for the above-identified patent application is not legible when viewed in PAIR. However, the document was perfectly legible when viewed during the electronic filing process when originally uploaded to the USPTO's server. Therefore, it is believed that the fault lies with the USPTO's process of uploading the documents into PAIR.

Applicants submit herewith, replacement copy of the document (PCT Search Report).

Respectfully submitted,
BEYER WEAVER & THOMAS, LLP
